A Necessity — New Education Policy 2020

The New Education Policy has its objective of making the learning process more efficient by enhancing students' thinking and creative ability..

The policy focuses on the relevance of a multi-disciplinary approach which aims at all-round development of the student.

It visualises the formation of a new curriculum and structure of education which will help the students at their different stages of learning and will reach up to all, from urban to rural areas. It will be towards meeting sustainability by fulfilling Goal 4- Quality Education

The policy focuses on :

1. The integrated development of the learners.
2. **It replaces the 10+2 system with 5+3+3+4 structure, which states 12 years of schooling and 3 years of pre-schooling, thus kids will experience schooling at an earlier stage.**
3. The examinations will be conducted in 3, 5, and 8th grades only, others will go for the regular assessments.
4. Board exams will also be made easier and will be held twice in a year.
5. The policy envisages a multi-disciplinary and integrated approach and focuses on enhancing practical education instead of laying stress on books for learning.
6. NEP allows for the development and learning of children by general interaction, group discussions, and reasoning.
7. The students will have the freedom to select the course they desire to learn, along with the course subjects, thus promoting skill development .

The main motive is making a child learn along with becoming a skilled one, in whatever field they are interested in and in this way the learners are able to figure out their aim, and their capabilities. The learners are to be provided with integrated learning i.e. having the knowledge of every discipline.

The new education policy focuses on the child's overall development. Keeping these changes in mind and as per the guidelines of NEP 2020 ,we in **Dav Brij Vihar** give maximum exposure to students in developing competencies ,by adopting Trans - disciplinary approach and abundant opportunities are provided to students to acquire knowledge in real life situations. We have shifted from content based assessment to competency based assessment. Therefore we in **DAV Brij Vihar** have comprehensive layout for assessment in accordance with the principles laid down by NEP2020.

Schedule For Assessment Session 2023-24

CLASS LKG-II

Assessment during 3 to 7 years of age is measured by teachers' ongoing observation over the whole year and not on a single test. Child's progress is compared to his or her previous achievement and not with others. The evaluation is used to diagnose the learning difficulties and inadequacies of the learner. Comprehensive evaluation system is used at the primary stage. Assessment of the child's progress will be recorded and will be shown to the parents after three months ,through a cumulative card.

1st Assessment– April to August '2023

2nd Assessment-September to December '2023

3rd Assessment-January-March 2024

The cumulative card shows development of the child in different areas with remarks egs: Always ,Usually ,Some time and Needs attention.
